Getting N instead of AC WiFi - [Solved]

2019/08/28

Dear Community I have AC capable router (RT-AC68U) and AC capable adapter (ROSEWILL RNX-AC1900PCE) Latest drivers (updated on Dec 6, 2017) and firmware are installed. However, for some reason, Windows 10 x64 WiFi details shows that I am connected via N not AC. AC has a number of benefits over N like beamforming etc. Has anyone had this problem before? How can I force the network to be connected via AC? Thank you

## how to make a cell phone jammer homemade
